

Release notes

Opus Dental 7.1 Iceland

MAKING IT SIMPLE

Release notes in Opus Dental 7.1.612

(29.12.2023)

Sjukra:

- **New:** Implemented new rates from Sjukra effective from January 1. 2024 (16816)
- Added a new pricelist named "SÌ 1.1.24" (16816).
- **New:** Implemented new M rates from Sjukra effective from January 1. 2024 (16825).
- Added a link to various Sjukra forms in Opus (16713).

Economics:

- Enhanced the age-distributed balance report to handle large databases and queries (16782).
- Corrected the turnover survey calculation when writing off an invoice with VAT (16811).
- Ensured correct VAT calculation on the payment survey when the payment includes an initial balance (16799).
- **New:** Introduced the ability to have a 3-digit OCR ID (16819).
- Now it is possible to get patient balance report when you get for several companies for a long period of time (16782).

Appointmentbook:

- **New:** Added the option to choose whether to display the clinic/company on the appointment, with default settings for public and university versions, and default-off for private databases (16757, 16781).

Miscellaneous:

- Opus now supports TLS 1.2 (16740).
- Users can now save telephone numbers for guardians in the register card (16702).
- **New:** Added the capability to configure proxy settings under mail settings (16755).
- **New:** Introduced the option to select organizations under today's patient to display today's patients for the entire database (16790).
- Made corrections to margins and size on the printing of namelabels (16795).

X-ray:

- Implemented Sectra Pacs (16732).
- Tooltips now display the full name of the login user for easier identification (16759).
- Resolved the issue, allowing the copying of x-ray settings to and from (16773).
- Corrected so that it is possible to create a new price code that only needs to be saved once to be stored (16764).

University:

- Enabled the retrieval of student journal rows in dental journal statistics (16732).

Release notes in Opus Dental 7.1.607

(12.12.2023)

Sjúkra:

- Now it is possible for the surgeons to send in the reimbursement on EALM without applying for it first (16812).

Release notes in Opus Dental 7.1.603

(12.10.2023)

Sjúkra:

- New rates from Sjúkra from 1.9.23 are now implemented (16754)
- A new pricelist named "Sì 1.9.23" is added (16754).
- Rate 057 from Sjúkra is now implemented (16762).

Journal:

- Predefined texts will not appear multiple times under the finance button, and it is possible to add these texts to the journal (16777).

Economics:

- Occasional challenges with adding new prices have been fixed (16772).
- The sum in the print of the list payable survey (Yfirlit yfir útistandandi) is now correct (16776).
- It is now implemented for P27 (16680).

Miscellaneous:

- The social security number field has been changed back to Icelandic format (16756).
- An algorithm is added to decide which century the patient is born based on the last digit in the social security number (16756).
- Now it is not possible to send marketing information to a patient who has not given consent to send this (16649).

Orthodontics:

- You can now enter term 1 in the orthodontic treatment agreement (16780).

Release notes in Opus Dental 7.1.594

(12.07.2023)

Sjúkra:

- All the rates are included in the tax list from Sjúkra, including the T taxes and S taxes (16730).

Economics:

- All the rates are included in the price list SÌ 1.7.2023, including the T taxes and S taxes (16730).

Miscellaneous:

- The database will not be locked when updating from version 7.1.591 to 7.1.594 (16729).

Release notes in Opus Dental 7.1.593

(06.07.2023)

Sjúkra:

- All the rates are included in the tax list from Sjúkra, including tax 8 (16726).
- High and custom prices for Sjúkra are now implemented, in addition to the middle price (16728).

Economics:

- It is possible to change the rest amount on an invoice, requiring a code from Opus support (16703).

Journal:

- The new tax number 9, Áhættuskoðun, is moved from button ýmislegt to Skoðun (16727).

Miscellaneous:

- Now it is implemented a choice to choose the century, where you can choose empty, 19, 20 or automatically. This is standard set to automatically so when you enter a birthdate/kennitala it is counting if it should choose 19 or 20 as the century based on which year the birthdate is. For example if you register 22 as year it will choose 20 as century but if you register 24 as year it will choose 19 as century. (16724)
- Now you can search for the whole social security number/kennitala and it will find the correct person and not suggest to register a new patient. (16725).

Release notes in Opus Dental 7.1.592

(02.07.2023)

Sjúkra:

- New rates from Sjúkra effective from 1.7.23 are now implemented (16712)
- A new price list named "SÌ 1.7.23" is added (16712).

Miscellaneous:

- Age will now appear in the field in the personal information, when the patient is born before 1950 (16655).

These release notes provide information on various improvements and changes to Opus Dental 7.1 software specific to the Icelandic version.
